Jiayin Group Reports Second Quarter 2019 Unaudited Financial Results

SHANGHAI, September 4, 2019 (GLOBE NEWSWIRE) —Jiayin Group Inc. (“Jiayin” or “the Company”) (NASDAQ: JFIN), a leading online individual finance marketplace in China, today announced its unaudited financial results for the quarter ended June 30, 2019.

Highlights:

- Loan origination volume¹ was RMB4,900 million, representing a decrease of 15.1% from the same period of 2018, and a decrease of 25.0% sequentially
- Investment volume² was RMB6,242 million, representing a decrease of 7.8% from the same period of 2018, and a decrease of 18.6% sequentially
- Average investment amount per investor was RMB56,653, representing an increase of 32.7% from the same period of 2018
- Average borrowing amount per borrower was RMB7,122, representing a decrease of 3.4% from the same period of 2018
- Net revenue was RMB635.6 million, representing a decrease of 6.6% from the same period of 2018, and a decrease of 13.1 % sequentially
- Operating income was RMB185.4 million, representing a decrease of 24.4%, from the same period of 2018, and a decrease of 37.1% sequentially
- Net income was RMB168.6 million, representing a decrease of 19.8% from the same period of 2018, and a decrease of 33.7% sequentially

Mr. Yan Dinggui, the founder, Director and Chief Executive Officer, commented: “Our operating results in the second quarter reflect the challenges faced by all players in our industry. We were impacted both by compliance with the government’s triple decline policy and by generally unfavorable market conditions, yet by operating conservatively we sustained very attractive profitability. We are confident that we can emerge from this period of regulatory uncertainty with a strong and growing business, and achieve our long-term growth objectives.”

Financial Results

Net revenue was RMB635.6 million (US\$92.6 million), representing a decrease of 6.6% from the same period of 2018, primarily due to reduced loan origination volume in the second quarter of 2019.

¹ “loan origination volume” refers to the total amount of loans facilitated through the Company’s marketplace during a certain period

² “investment volume” for a certain period refers to the sum of the principal amount of all investment transactions executed by investors directly through the Company’s marketplace during such period. The calculation of the investment volume of an investment made by an investor through the automated investment program does not take into account automated reinvestments enabled by the automated investment program;

Revenue from loan facilitation services was RMB477.0 million (US\$69.5 million), representing a decrease of 13.5% from the same period of 2018, primarily due to reduced loan origination volume.

Revenue from post-origination services was RMB85.8 million (US\$12.5 million), representing an increase of 66.2% from the same period of 2018, as we benefitted from the accumulated loans originated during prior periods.

Origination and Servicing Expense was RMB127.7 million (US\$18.6 million), representing an increase of 26.0% from the same period of 2018, primarily due to the increased expenses associated with risk control and credit assessment.

Allowance for Uncollectible Receivables and Contract Assets was RMB70.8 million (US\$10.3 million), representing an increase of 23.2% from the same period of 2018, primary due to unfavorable industry conditions.

Sales and Marketing expense was RMB149.8 million (US\$21.8 million), representing a decrease of 27.7% from the same period of 2018, primarily due to reduced advertisement spending for promotional activities.

General and Administrative expense was RMB51.5 million (US\$7.5 million), representing an increase of 63.2% from the same period of 2018, primarily due to increased payroll expenses and certain share-based compensation expense related to options granted in October 2018.

Research and Development expense was RMB50.5 million (US\$7.4 million), representing an increase of 33.9% from the same period of 2018, as the Company continued to improve its technology for credit assessment.

Income from operations was RMB185.4 million (US\$27.0 million), representing a decrease of 24.4% from the same period of 2018.

Net income attributable to Jiayin Group shareholders was RMB168.9 million (US\$24.6 million), compared with RMB210.2 million in the same period of 2018.

Cash and Equivalents at quarter-end were RMB438.4 million (US\$63.9million), compared with RMB150.0 million in the same period of 2018.
