¹ "Loan facilitation volume" refers to the loan volume facilitated in Mainland China during the period presented.

² "Repeat borrower contribution" for a given period refers to the percentage of loan facilitation volume in Mainland China attributable to repeat borrowers during that period.

"Repeat borrowers" during a certain period refers to borrowers who have borrowed in such period and have borrowed at least twice since such borrowers' registration on our platform until the end of such period.

³ "90 day+ delinquency ratio" refers to the outstanding principal balance of loans that were 91 to 180 calendar days past due as a percentage of the total outstanding principal balance of loans facilitated through the Company's platform as of a specific date. Loans facilitated outside Mainland China are not included in the calculation.

⁴ Please see the section entitled "Use of Non-GAAP Financial Measure" below and the table captioned "Unaudited Reconciliations of GAAP and Non-GAAP Results" set forth at the end of this press release.

Mr. Yan Dinggui, the Company's Founder, Director, and Chief Executive Officer, commented: "In the second quarter, loan facilitation volume amounted to RMB37.1 billion, marking a new quarterly record since the Company's listing. Non-GAAP income from operation totaled RMB737.6 million, demonstrating the resilience and adaptability of our core business model amid macroeconomic uncertainty.

Leveraging our AI-powered fintech capabilities, we have achieved greater cost efficiency and enhanced risk management, reinforcing our ability to consistently deliver strong performance and create value for shareholders. Over the long term, as we systematically cultivate our AI capabilities, we will maintain a strong focus on robust risk management and controls. This dual focus will drive operational excellence and enable us to build sustainable competitive advantages in our core domains."

Second Quarter 2025 Financial Results

Net revenue was RMB1,886.2 million (US\$263.3 million), representing an increase of 27.8% from the same period of 2024.

Revenue from loan facilitation services was RMB1,609.4 million (US\$224.7 million), representing an increase of 69.2% from the same period of 2024. The increase was primarily due to the increased volume facilitated by the Company.

Revenue from releasing of guarantee liabilities was RMB126.4 million (US\$17.6 million), compared to RMB424.8 million in the same period of 2024. The year-over-year decrease was primarily due to the decrease in average outstanding loan balances for which the Company provided guarantee services.

Other revenue was RMB150.4 million (US\$21.0 million), representing an increase of 49.8% from the same period of 2024. This increase was primarily due to the increase in the contribution from referral fees.

Facilitation and servicing expense was RMB285.1 million (US\$39.8 million), representing a decrease of 53.1% from the same period of 2024. This was primarily due to decreased expenses related to financial guarantee services.

Allowance for uncollectible assets, loans receivable and others was RMB32.5 million (US\$4.5 million), compared with RMB3.3 million reversal in the second quarter of 2024, primarily due to the additional cap of oversea guarantees which the Company provided for loan facilitation business conducted by the Company's investee in the second quarter of 2025.

Sales and marketing expense was RMB710.5 million (US\$99.2 million), representing an increase of 46.0% from the same period of 2024, primarily due to an increase in borrower acquisition expenses and commission expenses.

General and administrative expense was RMB110.5 million (US\$15.4 million), representing an increase of 70.0% from the same period of 2024, primarily driven by an increase in payroll expenses and share-based compensation.

Research and development expense was RMB108.4 million (US\$15.1 million), representing an increase of 16.8% from the same period of 2024, primarily due to higher share-based compensation as well as increased professional service fees.

Income from operation was RMB639.1 million (US\$89.2 million), representing an increase of 181.4% from the same period of 2024.

Non-GAAP income from operation was RMB737.6 million (US\$103.0 million), compared with RMB261.6 million in the same period of 2024.

Net income was RMB519.1 million (US\$72.5 million), representing an increase of 117.8% from RMB238.3 million in the same period of 2024.

Basic and diluted net income per share was RMB2.46 (US\$0.34), compared to RMB1.12 in the second quarter of 2024.

Basic and diluted net income per ADS was RMB9.84 (US\$1.36), compared to RMB4.48 in the second quarter of 2024. Each ADS represents four Class A ordinary shares of the Company.

Cash and cash equivalents were RMB316.2 million (US\$44.1 million) as of June 30, 2025, compared with RMB190.3 million as of March 31, 2025.

The following chart and table display the historical cumulative M3+ Delinquency Rate by Vintage for loan products facilitated through the Company's platform in Mainland China.

Business Outlook

The Company expects its loan facilitation volume for the full year of 2025 to be in the range of RMB137.0 billion to RMB142.0 billion and its loan facilitation volume for the third quarter of 2025 to be in the range of RMB32.0 billion to RMB34.0 billion. The Company expects its non-GAAP income from operation for the third quarter of 2025 to be in the range of RMB0.49 billion to RMB0.56 billion. This forecast reflects the Company's current and preliminary views on the market and operational conditions, which are subject to change.

Recent Development

Dividend Payment

Use of Non-GAAP Financial Measure

We use non-GAAP income from operation, which is a non-GAAP financial measure, in evaluating our operating results and for financial and operational decision-making purposes. We believe that the non-GAAP financial measure helps identify underlying trends in our business by excluding the impact of share-based compensation expenses. We believe that non-GAAP financial measure provides useful information about our operating results, enhances the overall understanding of our past performance and future prospects and allows for greater visibility with respect to key metrics used by our management in its financial and operational decision-making.

Non-GAAP income from operation represents income from operation excluding share-based compensation expenses. Such adjustment has no impact on income tax.

Non-GAAP income from operation is not defined under U.S. GAAP and is not presented in accordance with U.S. GAAP. The non-GAAP financial measure has limitations as analytical tool, and when assessing our operating performance, cash flows or our liquidity, investors should not consider it in isolation, or as a substitute for income from operation, net income, cash flows provided by operating activities or other consolidated statements of operation and cash flow data prepared in accordance with U.S. GAAP. The Company encourages investors and others to review our financial information in its entirety and not rely on a single financial measure.

For more information on this non-GAAP financial measure, please see the table captioned "Unaudited Reconciliations of GAAP and Non-GAAP results" set forth at the end of this press release.
